NOAH T. LIANEZ

HAYMARKET, VA
(703) 479-5034 | noahlianez@ufl.edu

EDUCATION

University of Florida **Gainesville, FL**
B.S. in Mathematics **August 2026 - May 2030**
Relevant Coursework: Differential Equations, Reasoning and Proofs in Mathematics

George Mason University **Fairfax, VA**
Dual Enrollment w/ Governor's School @ Innovation Park **August 2024 - May 2026**
Relevant Coursework: Calculus I/II/III, Linear Algebra, Physics: Mechanics & E/M, Statistics
SAT: 1540/1600 M:790/800

EXPERIENCE

AlgoGators Investment Fund - Quantitative Trader **Gainesville, FL**
Student-managed quantitative investment fund **September 2026 – Present**
- Develop and backtest systematic trading strategies using market data to evaluate opportunities across futures markets.
- Support research for a $500K AUM portfolio by evaluating strategy performance and risk characteristics.

The Piano Company - Sales & Pricing Analyst **Fairfax, VA**
Luxury piano sales and client advising **May 2025 – May 2026**
- Analyzed competitor pricing and demand trends across a 150+ instrument inventory to inform pricing strategy.
- Matched clients to instruments by evaluating budget, skill level, and technical specs, facilitating $450K+ in sales.

LEADERSHIP AND PROFESSIONAL DEVELOPMENT

Vegas Beater - Lead Researcher **Fairfax, VA**
Predictive analytics research for professional tennis @ GMU **August 2025 - May 2026**
- Led a small team building ML models (Random Forest, XGBoost) to outperform IBM's Elo-based tennis predictor.
- Engineered features from 20+ years of ATP data (serve, player, surface) that Elo's formula ignores.
- Beat IBM watsonx's Wimbledon 2025 accuracy (68.6% vs. 68%) by combining ML with richer feature inputs.
- Synthesized a year of modeling results into a symposium presentation for GMU faculty and peer researchers.

Battlefield High School Student Council - President of Events **Haymarket, VA**
Event operations and fundraising initiatives **August 2023 – June 2025**
- Negotiated sponsorships with local businesses and managed ticket/concession sales to raise $36K+ across 4 annual events.
- Directed 50+ members by delegating tasks to subcommittees, running weekly meetings, and training new members.
- Built and adjusted event budgets in response to funding changes, coordinating vendor contracts and venue logistics.
- Reinvested event proceeds into school-wide student initiatives, aligning fundraising goals with long-term program needs.

Innovations @ The Governor's School - Embedded Systems Developer **Fairfax, VA**
Humidity-responsive fragrance atomizer **January 2025 - May 2025**
- Built Arduino Nano 33 BLE Sense system with DHT20 sensor and servo-driven fragrance atomization.
- Programmed C++ logic to trigger atomization when humidity crossed a set threshold.
- Iterated CAD designs across multiple versions to fit hardware into a compact, discreet housing.
- Collaborated on a shared-role team to integrate sensing, actuation, and enclosure design.

ADDITIONAL INFORMATION
